

# YouScript Actionable Medication List

Surfacing evidence-based drug-gene interaction guidance within the clinical workflow

YouScript's database contains almost 2,000 unique drugs, herbals, and OTC medications and over 90 phenotypes. Our clinical content team continuously evaluates new drugs, research, and data, and created a library of over 17,000 professionally curated published references and product inserts.

## Actionable Drug-Gene Interactions

The table below is a targeted list totaling 184 drugs within YouScript which contain a defined, actionable drug-gene interaction. For a comprehensive list of drugs with any drug-gene interaction, contact us at [info@youscript.com](mailto:info@youscript.com).

abacavir	clomipramine	esomeprazole	ketamine
allopurinol	clopidogrel	ezetimibe	lamotrigine
amitriptyline	clozapine	fesoterodine	lansoprazole
amlodipine	codeine	fexofenadine	lapatinib
amoxapine	cyclophosphamide	flecainide	leflunomide
aripiprazole	cyclosporine	flibanserin	lesinurad
atazanavir	dabrafenib	fluorouracil	lidocaine
atomoxetine	dapsone	fluoxetine	losartan
atorvastatin	darifenacin	flurbiprofen	mafenide
azathioprine	desflurane	fluvastatin	maprotiline
belinostat	desipramine	fluvoxamine	melatonin
brexpiprazole	deutetrabenazine	fosphenytoin	meloxicam
brivaracetam	dexlansoprazole	galantamine	mercaptapurine
bupropion	dextromethorphan	gefitinib	mesalamine
capecitabine	diazepam	glimepiride	methadone
carbamazepine	diclofenac	glipizide	methotrexate
carglumic acid	dimercaprol	glyburide	methylene blue
carisoprodol	docetaxel	haloperidol	metoclopramide
carvedilol	dolutegravir	hydrocodone	metoprolol
celecoxib	donepezil	hydroxychloroquine	mexiletine
cevimeline	doxepin	ibuprofen	mitotane
chloramphenicol	duloxetine	iloperidone	mycophenolic acid
chloroquine	efavirenz	imipramine	naproxen
chlorpheniramine	eliglustat	indinavir	nateglinide
chlorpropamide	eltrombopag	irbesartan	nefazodone
cilostazol	entacapone	irinotecan	nelfinavir
cisplatin	erlotinib	isoflurane	nevirapine
citalopram	escitalopram	isoniazid	nilotinib
clobazam	eslicarbazepine	ivacaftor	nitrofurantoin

Reviewed: 6/8/2018

norfloxacin	tamsulosin
nortriptyline	tetrabenazine
olanzapine	tetrahydrocannabinol
omeprazole	thalidomide
ondansetron	thioguanine
oxcarbazepine	thioridazine
oxycodone	timolol
pantoprazole	tolbutamide
paroxetine	tolterodine
pazopanib	torsemide
pegloticase	tramadol
perphenazine	trazodone
phenazopyridine	trimipramine
phenobarbital	valacyclovir
phenytoin	valbenazine
pimozide	valproic acid
piroxicam	velaglucerase alfa
pitavastatin	venlafaxine
PEG/electrolyte solution	voriconazole
pravastatin	vortioxetine
prilocaine	warfarin
primaquine	
primidone	
probenecid	
propafenone	
protriptyline	
quazepam	
quetiapine	
quinine	
rasburicase	
regorafenib	
repaglinide	
ribavirin	
risperidone	
rosuvastatin	
sertraline	
sevoflurane	
silver sulfadiazine	
simvastatin	
sodium nitrite	
sorafenib	
succinylcholine	
sulfadiazine	
sulfamethoxazole/ trimethoprim	
sulfasalazine	
tacrolimus	
tamoxifen
