

YouScript Comprehensive Medication List

YouScript's database contains almost 2,000 unique drugs, herbals, and OTC medications and over 90 phenotypes. Our clinical content team continuously evaluates new drugs, research, and data, and created a library of over 17,000 professionally curated published references and product inserts.

Drug-Gene Interactions

The table below is a complete list totaling 273 drugs within YouScript which contain a defined drug-gene interaction, regardless of the potential severity or actionability. Please note that while certain drugs may have a defined interaction, not all data presented here is actionable. For a list of drugs with actionable interactions, contact us at info@youscript.com.

abacavir	carisoprodol	dexmethylphenidate	fexofenadine
acebutolol	carvedilol	dextroamphetamine	flecainide
alfentanil	celecoxib	dextromethorphan	flibanserin
allopurinol	cevimeline	diacetylmorphine	fluorouracil
amitriptyline	chloramphenicol	diazepam	fluoxetine
amlodipine	chloroquine	diclofenac	flurbiprofen
amoxapine	chlorpheniramine	digoxin	fluticasone
amphetamine	chlorpromazine	dimercaprol	fluvastatin
arformoterol	chlorpropamide	diphenhydramine	fluvoxamine
aripiprazole	cilostazol	disulfiram	fosphenytoin
ascorbic acid	ciprofloxacin	docetaxel	galantamine
atazanavir	cisplatin	dolasetron	gefitinib
atenolol	citalopram	dolutegravir	gliclazide
atomoxetine	clobazam	donepezil	glimepiride
atorvastatin	clomipramine	doxepin	glipizide
azathioprine	clopidogrel	duloxetine	glyburide
belinostat	clozapine	efavirenz	haloperidol
benazepril	cocaine	eliglustat	hydralazine
brexpiprazole	codeine	eltrombopag	hydrocodone
brivaracetam	cyclophosphamide	entacapone	hydromorphone
buprenorphine	cyclosporine	erlotinib	hydroxychloroquine
bupropion	dabrafenib	escitalopram	ibuprofen
caffeine	dapsone	eslicarbazepine	iloperidone
candesartan	darifenacin	esomeprazole	imatinib
capecitabine	desflurane	ethanol	imipramine
carbamazepine	desipramine	ezetimibe	indacaterol
carboplatin	desvenlafaxine	ezogabine	indinavir
carglumic acid	deutetrabenazine	fentanyl	irbesartan
cariprazine	dexlansoprazole	fesoterodine	irinotecan
